John Marshall high school; Miss Cobbs, who went to Norfolk high school; Miss Holland, who is now teaching in John Marshall, and many others who were lured away at a much advanced price; and so it happens this year that two and possibly three of our high school teachers will leave this year for larger fields of usefulness at a very increased salary; while many of our grade teachers are being sought after by other school boards. What is the remedy? X

What's become of the prejudice against automobiles because they frightened the horses

NOW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it. This year the American people will spend *nearly a billion dollars* on tires alone.

Tires are one of the *biggest items* on the car owner's bills.

II

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in *Service*.

Service is what the car owners of this community are looking for nowadays.

And especially the *small* car owners, who put service *first* in figuring their motoring expenditures.

III

Just because a man has a moderate-price car is no reason why he should get any *less service* out of his tires.

We believe that the man with the small car is entitled to *just as good* tire service as the man with the big car—and both are entitled to the *best tire service* they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—*large* and *small*—are coming to us every day for U. S. Tires.

IV

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak...

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Every Inch of the Bates Steel Mule is Thoroughbred

The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that is'nt time-tried and tested. There isn't a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
